

RELATÓRIO ANUAL 2021

Lian Maklokek

Essellénsia le naín sira!

Tinan 2021 sai hanesan tinan ida nakonu ho dezafios, Covid-19 sai hanesan pandemia ida ne'ebé hapara no atraza atividades lubuk wain.

Iha rai barak-barak efeitu husi Covid-19 evidentemente hanesan laloran bo'ot ida ne'ebé mak sobu oportunidade barak, ekonómia global sofre maka'as, Timor-Leste la se'es mós husi turbulancia ida ne'e. Mesmo nune'e ANPM la desmoraliza ho

sirkumstansia tomak, esforsu hotu ne'ebé mak ANPM foti iha tinan 2021 prova katak tinan 2021 laos sai tinan dezafius maibe mós tinan oportunidade.

Iha tinan 2021 mesmo iha pandemia nian laran ANPM konsege halo "record" iha ninian istória nudar reguladora – ba dala uluk ANPM konsege halo aprovasaun no superviziona perfurasaun hamutuk ne'en (6) iha teritório Timor-Leste.

ANPM fo aprovasaun no superviziona ba perfurasaun "infill well" tolu iha tasi-laran Timor-Leste nian iha kampo Bayu-Undan. Posu tolu ne'ebé mak fura fo rezultado pozitivu hotu no kontribui ba aumento produsaun no receita mai estado Timor-Leste.

Iha tinan 2021, Timor-Leste marka istória importante ida iha jornada indústria petrolífera nian liu husi perfurasaun primeiru iha rai-maran hafoin tinan lima nulu (50) laiha perfurasaun ida iha rai-maran ka onshore Timor-Leste nian. Ho perfurasaun ida ne'e loke kapitulo foun iha atividade esplorasaun onshore Timor-Leste nian.

Durante pandemia Covid-19, ANPM konsege halao 3^a Cimeira Mina no Gas nian virtualmente. Atividade promosaun mós kontinua lao liu husi ezpozisaun no roadshow iha rai lubuk ida husi Australia, Singapore, Estados Unidos da America, United Arab Emirates, Reino Unido, Angola no rai

seluk-seluk tan hodi atria investores mai Timor-Leste. Esforsu hirak ne'e lao ho suksesu tebes mesmo iha pandemia nian laran.

ANPM iha tinan 2021 asegura mós katak industria petrolífera iha Timor-Leste akompaña nafatin trend global hodi asegura industria ida ne'ebé sustentável iha tempu oin mai. Hanesan haktuir iha Akordu Paris (Paris Agreement), países barak no empresas petrolífera barak mak transforma sira nian an husi empreza mina no gas ba empreza enerjetika. Países no empreza sira ne'e kompremete atu atinzi net-zero target iha tinan 2050 nune'e esforsu lubuk ida mak sira hatu'ur hodi atinzi alvu ida ne'e, inklui komprimisu ba redusaun emisaun Co₂ iha atmosferu no kompremete ba projeto tranzisaun enerjetika. Timor-Leste lakohi lakon oportunidade ida ne'e no iha loron 13 fulan Setembru iha tinan 2021 asina Nota de Entendimentu ida ho Santos atu explora oportunidade hodi transforma Bayu-Undan sai CCS (Carbon Capture and Storage)/ Kapturasau, Armazenamentu ba Karbonu nian hub ne'ebé mak sei bo'ot liu iha mundo ho kapasidade 10 MTPA (Milhões Tonneladas Por Ano). Projeto ida ne'e tau Timor-Leste nian imajem a'as tebes iha mundo mesmo Timor-Leste hanesan país ki'ik oan ida maibe bele kontribui hodi solusiona problema mundial. Projeto ida ne'e mós sei garantia kontinuidade reseita husi Bayu-Undan mesmo mina no gas maran ona maibe kampo ne'e sei bele halo nafatin osan ba Estadu Timor-Leste no ao mesmo tempu jere Carbon Credit hanesan elementu integral ida husi ekonomia futuru nian.

Esforsu seluk ne'ebé marka iha rohan tinan 2021 nian mak ANPM asina tan Kontratu Fahe Produsaun Bloku Pualaca nian ho TIMOR GAP, E.P. iha loron 7 fulan Dezembru tinan 2021. Kontratu ida ne'e fo oportunidade ba TIMOR GAP, E.P. atu explora mina no gas iha bloku refere.

Iha tinan 2021, ANPM mos marka tan istória importante ida iha setór mineiro liu husi apresentasaun Kodigu Mineiru ba Parlamentu Nacional no hetan aprovasaun ho unanimidade husi Parlamentu Nacional no hetan promulgasaun husi Sua Excelencia Presidente da República. Kodigu Mineiru mak enkuadramentu legal principal iha setór mineiru, liu husi kodigu ida ne'e mak Timor-Leste sei habelar tan ninian industria mineira hodi bele jere receitas adisionais ba estadu Timor-Leste.

ANPM kontinua garantia katak investimentu iha indústria petrolífera no mineira nian atu sei buras ba bebeik iha tinan hirak tuir mai ho esforsus no atinzimentu tomak iha tinan 2021, ANPM fiar katak

oportunidade maxima ba Timor oan iha industria extrativas sei la hela iha mehi deit maibe sei kontempla iha atividades lubuk ida ne'ebé sei halo no fo oportunidade ba Timor oan tomak.

ANPM agradese tebes ba parseiru hotu-hotu ne'ebé mak kontribui ona iha tinan dezafiu no mós tinan oportunidade iha 2021 no deseja tinan 2022 sai nudar tinan de asaun nian ba pilar importante hirak ne'ebé mak hatu'ur ona iha tinan 2021.

Melhores Cumprimentos,

Florentino Soares Ferreira

Prezidente ANPM

1.2 Valor, Vizaun, Misaun no Objetivu

Valor Sira

Kolaborasaun

Hari kolaborasaun ida eficiente no efetivu entre (i) Diresaun sira iha ANPM, no (ii) parseiru sira.

Nakloke

Onestidade no transparansi – apoiu ho kultura konfiansa no respeitu

Unidade

ANPM promove serbisu hamutuk ho ninia funzionariu sira no diresaun sira. Apresia no respeitu diversidade kultura intelektual sira, ANPM unidu iha ambisaun hodi sai organizasaun nível mundial ida iha Timor-Leste.

Responsabilidade

Hanesan profissionais lolos, membru ekipa ANPM iha responsabilidade tomak ba sira nia asaun

Akuntabilidade

ANPM no nia membru ekipa sira responsabiliza ba padraun étika sira, hahlok, no desempeñu – iha kualker tempu. Liu tan ANPM mos responsabilidade ba Governu Timor-Leste. Wainhira hala'o serbisu sira iha Área Rejime Espesial Greater Sunrise, ANPM responsabiliza ba Timor-Leste no Australia, no foti asaun hodi nasau rua nia naran.

Vizaun Global

ANPM iha vizaun ida global maske nia hala'o nia operasaun iha Timor-Leste. ANPM serbisu no kordena atividade sira ho operador multinasional sira.

Excellencia

Atu bele dezenvolve organizasaun nasional ho kualidade mundial ida, ANPM ekselente iha buat hot-hotu ne'ebé mak nia halo.

Vizaun no Misaun

Vizaun

- Sai matadalan ba autoridade reguladora Petróleo no Minerais iha rejiaun no modelu ba desenvolvimentu institusional iha Timor-Leste.

Misaun

- Maksimiza reseita no multiplika benefsiu ekonomiku;
- Maksimiza Timor-Leste nia partisipasaun iha desenvolvimentu setor petrolíferu no mineiru;
- Promove lala'ok diak iha saude, siguransa serbisu no meiu ambiente;
- Desenvolve kapasidade institusional Timor-Leste nian iha seitor petrolíferu no mineiru.

Objetivu

Garante katak rekursu petrolíferu no mineiru sira tomak sei esplora, dezenvolve administra no regula ho efetivu;

Garante kata vantajen ekonómiku sira tomak hato'o ona ba estadu kontratante;

Aumenta oportunidade empregu ba sidadaun Timor-oan;

Dezenvolve organizasaun ho Exelente;

Promove no garante práтика di'ak ba SSM (Saúde, Siguransa Serbisu no Meiu Ambiente) nian;

Regula atividade sira Downstream nian iha Timor-Leste;

Maksimiza atividade ekonomia ba setor petróleo no minerais nian iha Timor-Leste.

1.3 Dezenvolvimentu No Estrutura ba Organizasaun

Estrutura

diskusaun téknika ne'ebé halo dala barak ona. Modelu ne'ebé halo iha tinan 2020, teknikamente labele utiliza hodi halo predisaun ba sesasaun produsaun iha kampu Bayu-Undan tanba modelu ne'e iha erru fundamentais no supozisaun sira ne'ebé jeolojikamente la realístiku. Husi rezultadu ne'e, ekipa ANPM solisita kompañia operador atu halo fali modelu rezervatoriou foun ne'ebé inklui deskobertas téknika sira husi ANPM, dadus produsaun ikus nian, dadus teste posu no dadus intervensaun posu. Tuir mai buat sira ne'ebé kompañia tenki halo;

1. Kompañia operador aseita atu akomoda ANPM nia pedidu hodi halo "Peer Assist" durante prosesu halo modelu
2. Diskusaun kona-ba estudu rezervatoriou liu husi enkontru tékniku sira entre ekipa ANPM ho kompañia operador
3. Kompañia operador akomoda diskoberta tékniku sira husi ANPM atu halo melhoramentu ba estudu rezervatoriou
4. Bayu-Undan BTC 2021, modelu ne'e halo hodi bele uza ba estudu injesaun Karbonu Dioxodu "Carbon Dioxide, C02" hanesan opsaun ida ba kampu wainhira produsaun remata
5. Kompañia operador fó ona apresentasaun ikus ba ekipa tékniku ANPM kona-ba rezultadu estudu sira iha dia 4 Novembru 2021
6. Kompañia operador entrega ona kopia estudu superfisiu no modelu rezervatoriou "Reservoir Models" ba ekipa ANPM. Estudu ne'e parsialmente kompleta ona no sei halo kompleta liu iha tinan 2022 ho dadus foun husi faze terceiru (Phase 3C) no dadus produsaun husi kampu.

➤ **Estudu Superfisiu ba Kampus Greater Sunrise**

Ekipa tékniku ANPM kolabora ho konsultant IRT husi Estadu Unidu Amérika hodi halo estudu superfisiu ba kampus Greater Sunrise. Objetivu husi estudu ne'e mak atu halo modelu rezervatoriou ho estimasaun razoavel ba Rezerva iha Kampus "Gas initial in Place", mekanismu ba optimizasaun produsaun no jestaun práktika rezervatoriou hodi suporta diskusaun planu dezenvolvimentu kampus Greater Sunrise. Estudu ne'e fahe ba faze 5 tanba natureza husi estudu ne'ebé presija implementa iha faze por faze. Rezultadus husi estudus ne'e mak hanesan:

1. Establelementu ba kontratu Serbisu "Service Agreement" entre ANPM no konsultant IRT
2. Projetu faze dahuluk (kolesaun ba dadus no QC) kompleta ona iha fulan Novembru 2021
 1. Konsultant halo ona apresentasaun final ba ekipa tékniku ANPM
 2. Relatório final ba faze ne'e entrega ona ba ANPM
3. Projetu faze daruak (Srbisu preparasaun ba modelu: Geophysics, Petrophysics, Geologia no Baziku Enjineiru Baziku) kompleta ona iha Dezembru
 1. Rezultadu interpretasaun ba sismiku entrega ona ba ANPM
 2. Konsultant apresenta on rezultadu faze 2 ba ekipa tékniku ANPM
 3. Relatório final submete ona ba ekipa ANPM
 4. Modelu PVT kompleta ona no rezultadu entrega ona ba ekipa ANPM
4. Projetu faze datolu, dahaat no dalima sei kontinua iha tinan 2022 no tuir espetativa sei kompleta iha fulan Jullu 2022.

➤ Monitorizasaun Rutina ba Dezempeñu no Víjilansia Rezervatoriу Kampu Bayu-Undan

❖ Jestaun Rezervatoriу ba Kampu Bayu-Undan.

- Produsaun husi kampu ba gas bokon/gas bruto "wet gas" mantein iha media 625 MMscfd. Gas produsaun maioriamente esporta ba planta DLNG hodi fa'an ba hola nain sira. Jeralmente, kampu Bayu-Undan kontinua mantein deliberausaun gas ba Planta D-LNG tuir ne'esesidade komersial
- Produsaun líkidu iha ínisu tinan ne'e kuaze 16,900 STBD no aumenta ba aprosimasaun 25,000 STB/kada loran iha fulan Agostu tanba posu W13ST2 produsain líkidu barak. Média produsaun líkidu ba tinan 2021 ne'e kuaze 16,900 STBD. Produsaun líkidu maioria kontribui husi posu R2P partikularmente posu D04 produz líkidu barak

- Injetasaun gas maran komesa iha tinan 2021 ho média 50 MMscfd no remata iha tinan ne'e ho média 10 MMScfd. Injetasaun gas maran kuaze atinji to'o 300 MMscfd iha fulan Outobru tanba planta DLNG halo meia operasaun

❖ Vijilansia Rezervotoriu ba Kampu Bayu-Undan

Kampu Bayu-Undan besik dadaun ona ba produsuan sesasaun, atividade teste posu importante hodi halo avaliasaun ba dezempeñu produsaun, opurtunidade analiza ba optimizasaun produsaun no monitorizasaun ba kapasidade produsaun kampu nian. Atividade rezervotoriu vijilansia foka liu ba kolesaun informasaun no dadus ba optimizasaun produsuan hodi masimiza kampu ninia produsaun hodi ba to'o iha produsaun sesasaun.

- Kampaña ba Posu Intervensaun: Atu halo redusaun ba produsaun bee, kompañia operador tau besi hodi taka bee iha posu laran "water shut off plugs". Iha mos atividade seluk mak hanesan halo manutensaun ba kuak iha posu laran hodi hasai produsuan husi posu sira ne'ebé esperensia menus produsuan gas.
- Produsaun sesasaun "End of field life": Atividade teste posu halo ba posu importante sira hodi monitoriza kapasidade produsaun husi kampu
- Atividade ba optimizasaun produsaun: Kompañia operador halo estratejia optimizasaun hodi mantein kapasidade produsaun ba posu sira iha kampu
- Atividade teste posu: Kampu Bayu-Undan presiza atualiza "PQ constant" no monitoriza kapasidade produsaun kampu. Teste ne'e foka liu ba posu importante sira mak hanesan D04, D09, D15 no posu husi faze terceira (P3C wells).

❖ Reuniaun (Workshop) Mensal ba Kampu Bayu-Undan iha Area Superfisiu

Ekipa tékniku ANPM halo kolaborasaun ho kompañia operador no hala'o reunian mensal iha área superfisiu. Objetivu husi reuniaun ne'e hodi halo diskusaun tékniku kona-ba kampu ninia estratejia produsaun hodi masimiza produsuan kampu

- Ekipa tékniku ANPM halo ezaminasuan ba estratejia produsaun ne'ebé ezerse husi kompañia operador. Ikus mai, iha mudansa barak ba estratejia sira ne'e hodi masimiza kampu ninia produsaun

- Predisaun ba Kampu Bayu-Undan uza modelu BTC 2020 kompara ho métodu DCA ne'ebé uza iha industria mina no gas.
- Optimizasaun ba facilidade ninia integridade hodi masimiza produsaun husi posu sira ne'ebé sei halo produsaun. Atividade facilidade integridade sira ne'e involve husi modifikasiun ba facilidade, prosesu realokasaun produsaun ba kada posu inklui mos prosesu deskarega produsaun bé.

Atividade Perfurasaun

➤ PROJETU PERFURASAUN FAZE 3C IHA BAYU-UNDAN

Perfurasaun ba posu W13ST2 komesa husi loron 6 fulan Maiu tinan 2021 to'o loron 12 Jullu tinan 2021. Antes halo perfurasaun ba posu W13ST2, Operador uluk nanain taka uluk rezervatori posu W13ST1 ho simenti husi perfundade metro 2,007 MDRT to'o perfundade metru 920 MDRT. Jeralmente, atividade taka rezervatori W13ST1 ho perfurasaun posu W13ST2 la'o ho diak nomos fura hetan mina matan tuir program ne'ebé ANPM aprova no laiha asidente ho insidente ne'ebé akontese durante perfurasaun.

Perfurasaun ba posu W10 komesa husi loron 13 fulan Jullu tinan 2021 to'o loron 26 fulan Setembru tinan 2021. Jeralmente, atividade perfurasaun posu W10 la'o ho diak nomos fura hetan mina matan tuir program ne'ebé ANPM aprova no laiha asidente ho insidente ne'ebé akontese durante perfurasaun.

Perfurasaun ba posu DS06 komesa husi loron 26 fulan Setembru tinan 2021 to'o loron 1 fulan Dezembru tinan 2021. Jeralmente, atividade perfurasaun posu DS06 la'o ho diak nomos fura hetan mina matan tuir program ne'ebé ANPM aprova no laiha asidente ho insidente ne'ebé akontese durante perfurasaun.

➤ PERFURASAUN ESPLORASAUN KAMPU BUFFALO-10

Ekipa dezenvolvimentu no produsaun ativamente halo avaliaun ba aplikasaun ba profurasaun no aplikasaun ba suspende ka abandonamentu Buffalo-10 atu asegura katak Operador (Carnarvon Petroleum) hala'o operasaun perfurasaun tuir Dekretu-Lei ba operasaun petroleum tasi laran no práтика indústria diak nian.

Sondagen Valaris 107 iha perparasaun aranka husi tasi Australia mai tasi Timor-Leste atu halo perfurasaun ba posu esplorasaun Buffalo-10 iha fulan Dezembru tinan 2021. Operador ba kampu (Carnarvon) planu komesa fura mina iha fim 2021. Planu perfurasaun ba posu ho perfundade metru 3,495 TVDRT iha ne'ebé tarjetu dahuluk mak formasaun Elang no tarjetu daruak mak formasaun Plover.

➤ **PSC TL-OT-17-08 (FETO KMAUS WELL) PERFURASAUN**

Perfurasaun esplorasaun ba posu Feto Kmaus komesa husi loron 25 Outobru tinan 2021 to'o loron 13 fulan Dezembru tinan 2021. Posu ida ne'e, planu atu fura to perfundade metru 1,039 TVD, maibe realidade iha terenu perfurasaun ba posu ida ne'e to'o deit iha perfundade metro 660 TVD tanba iha presaun ne'ebé bo'ot mai husi rai laran, ho nune'e operador (Timor- Resources) desidi taka tiha posu tanba pressaun husi rai laran bo'ot liu fali kapasidade sondagen ne'ebé operador uja hodi halo perfurasaun.

➤ **PSC TL-OT-17-09 (RUSA WELL) PERFURASAUN**

ANPM kontinua halo revisaun no avaliaun ba Timor-Resources nia Planu Jestaun Ambiental (EMP) ho Deklarasaun Impaktu Ambiental (EIS). Além de halo revisaun no avaliaun, ANPM mos halo visita ba fatin ne'ebé atu uja hodi halo perfurasaun iha Hatudu, Munisipiu Ainaro hodi observa direita impaktu sosial no risku ne'ebé bele akontese durante perfurasaun. Durante halo revisaun ba dokumentu sira, ANPM mos serbisu hamutuk ho ministeriu relavante sira hodi halo avaliaun detalladu. Rekejitu lubuk mak Operador (Timor – Resources) priense ona maibe atu halo kompleta liu tan, ANPM husu tan dokumentu balu husi Timor Resources. ANPM iha planu atu submete nia rekomendasaun tékniku ba Ministériu Petróleo no Minerais iha inísiu tinan 2022.

➤ **OBSERVASAUN BA HADIA POSU IHA BAYU-UNDAN**

Iha fulan Abril tinan 2021, ANPM halo avaliaun ba program atu hadia posu tolu (D09, D10 no D14) iha plataforma DPP, maibe iha realidade operador (Santos) konsege hadia deit posu rua (D09 ho D10) no posu rua ne'e bele halo ona produsaun.

Tuir mai, iha fulan Outobru tinan 2021, operador hatama fali notifikasiun atu hadia posu haat (D04, D09, D14 e W10), maibe operador konsege hadia deit posu tolu (D04, D09 no D14) no posu tolu ne'e agora bele halo ona produsaun.

➤ DEZMANTELAMENTU KAMPU BAYU-UNDAN

ANPM kontinua halo avaliaun no revisaun ba estudu konjunta ne'ebé halo iha tinan 2019 no mos karta husi operador atu husu desvia ba regulasaun balu iha lei JPDA nia laran kona-ba atu taka mina matan iha Bayu-Undan.

Métodu ne'ebé operador uja hadi taka mina matan iha Kampu Bayu-Undan mak Oil and gas United Kingdom guideline, maibe métodu ida ne'e seidauk bele justifika no konvense ANPM, tanba tuir ANPM sei iha diferensia ho regulamentu JPDA nian. Ho ida ne'e ANPM kontinua loke dalan serbisu hamutuk ho operador atu buka metodolojia ne'ebé diak hodi taka ho seguru posu sira ne'ebé iha kampu Bayu-Undan.

➤ DEZMANTELAMENTU KAMPU KITAN

ANPM kontinua halo avaliaun evaluasaun ba metodolojia ne'ebé uja hodi taka posu sira ne'ebé ezisti iha kampu Kitan no mos avalia karta husi operador atu desvia ba lei ruma iha regulamentu JPDA kona-ba taka mina matan iha Kampu Kitan. Durante halo avaliaun, ANPM serbisu hamutuk ho kompañia konsultan profisionál ida husi Estadu Unidu Amérika ho naran TSB Offshore. ANPM seidauk fó aprovisaun ba programa atu taka mina matan Kitan tanba sei iha diferensia entre metodolojia ne'ebé operador hatama ho lei ne'ebé ezisti (lei JPDA). Maibe, ANPM kontinua loke dalan ba operator atu halo diskusaun klean antes ANPM fó nia aprovisaun.

Rejime Espesial Greater Sunrise

Ho referénsia ba Tratado Fronteira Marítima (MBT), Aneksu B kona-ba Rejime Espesial Greater Sunrise (GSSR); Estadu Timor-Leste no Australia kontinua nafatin halo diskusaun GSSR hafoin ratifikasiun MBT liu husi troka Notas Diplomatika iha Ioron 30 fulan Agostu tinan 2019 entre Estado rua.

ANPM reprezenta Estadu Timor hala'o diskusaun ho Governu Australia no mos ho kontratores (Sunrise Joint Ventures) kampu GSSR. Ponto diskusaun refere liu ba estabelesimentu Rejime Legal no Fiskal ba GSSR ne'ebé haktuir iha provisaun relevante iha MBT, estrutura regulatorias ne'ebé eziste no mos práktika diak husi indústria. Pontu hirak ne'e partikularmente inklui Kodigu Minériu ba Petróleo (PMC), Kontratu Fahe Produsaun (PSC), kompetencias jurisdisionais, rejime fiskal ba

GSSR no diskusaun relevante seluk ne'ebé ho objetivu atu atinji dezenvolvimentu kampu GSSR ba benefísiu partes intersadas.

Ba tinan 2021, tanba ho situsaun pandemia surtu Covid-19 no restrisaun ba viajen, delegasaun Timor-Leste no Australia realiza deit reuniaun virtual ba diskusaun kona-ba kampu GSSR.

Diresaun SSA nia Dezempeñu Regulador iha Timor-Leste

1. INSPESAUN

➤ INSPESAUN BA OPERASAUN SIRA IHA TASI TIMOR-LESTE (KAMPU BAYU-UNDAN)

Laiha inspesaun ida mak hala'o iha tinan 2021 ba facilidade Bayu-Undan no Buffalo-10, tanba limitasaun viagem hodi prevene pandemia surtu COVID-19.

➤ INSPESAUN BA FASILIDADE PETRÓLEU IHA RAI MARAN (ONSHORE) TIMOR-LESTE

Iha 2021, inspesaun ida halo ba Eastern Drilling Rig#1 resulta (*findings*) tolu nulu resin lima (35) ne'ebé rejistadu. Kazu haat (4) mak konsidera naun konformidade (non-compliance) hasoru lejislasaun aplikável. *Findings* rua nulu resin haat (24) ne'ebé persiza asaun koresaun (correction action) no *findings* seluk pozitivu. Grafika tuir mai forne'ese separasaun ba identifikasiān kazu husi inspesaun ba naun konformidade, *findings* ne'ebé persiza asaun koresaun hodi kontinua melhora inklui *findings* pozitivu.

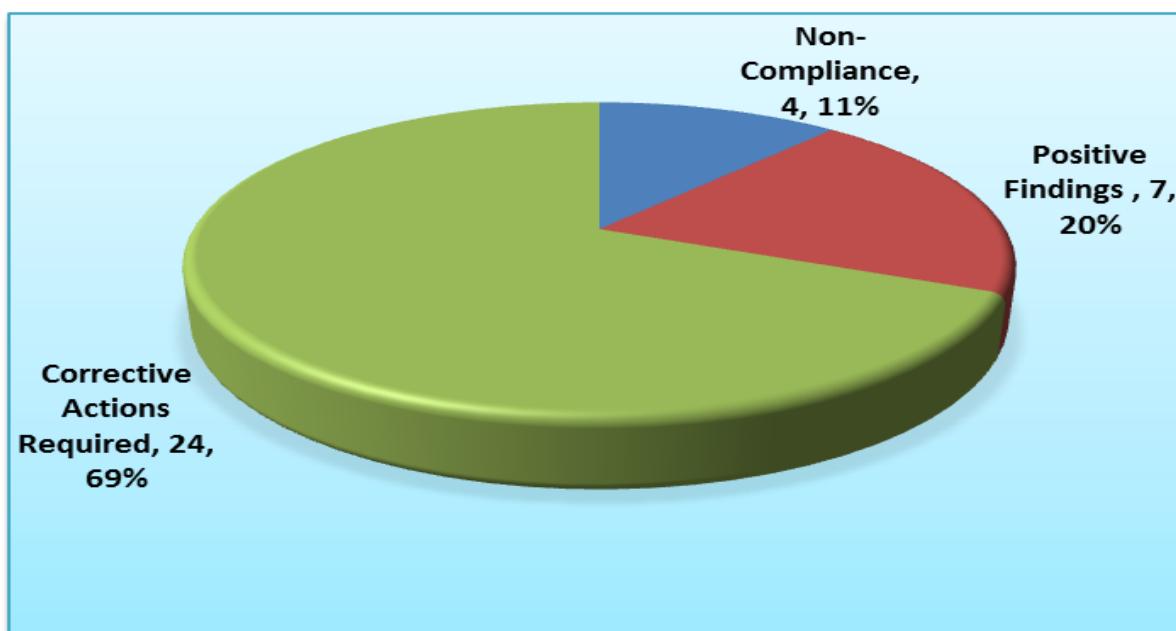

Diagrama 8: Rejultadu Inspecaun ba fasilidade perfurasaun iha rai maran (onshore)

Findings ne'ebé identifika durante inspesaun rejista iha relatório no komunika ona ba operador kontratante hodi bele taka (close-out) tuir tempu ne'ebé aseita husi ANPM no operador kontratante. Jeralmente, kuaze *Findings* ne'ebé persija asaun koresaun revolvidu hotu ona husi operador no kontrator perfurasaun (Timor Resources & Eastern Drilling).

2. AVALIASAUN NO APROVASAUN BA SUBMISAUN REGULADORA

➤ TASI LARAN TIMOR-LESTE

Durante período relatório, ANPM simu submisauoi-oin hodi halo avaliasaun no fó aprovasaun ka aseitasaun no selu-seluk relaciona ho operaun petrolífera iha área tasi Timor-Leste nian. Submisau reguladora ne'ebé hatama husi operador sira no la limita ba dokumentu hirak tuir mai ne'e:

Independent auditor's report to the Directors of Autoridade Nacional do Petróleo e Minerais

Opinion

We have audited the financial report of Autoridade Nacional do Petróleo e Minerais ("the Authority"), which comprises the statement of financial position as at 31 December 2021, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report presents fairly, in all material respects, the financial position of the Authority as at 31 December 2021, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Authority in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the financial report and auditor's report thereon

The directors are responsible for the other information. The other information comprises the information included in the annual report but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Authority are responsible for the preparation and fair presentation of the financial report in accordance with International Financial Reporting Standards and for such internal control as the directors determine is necessary to enable the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Authority or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Authority to cease to continue as a going concern.

**Building a better
working world**

Page 3

- ▶ Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

1. NATURE OF OPERATIONS

Autoridade Nacional do Petróleo e Minerais (ANPM) is a public institution created pursuant to the Decree Law No.27/2019 dated 27th August 2019 as the 2nd amendment to the Decree Law no. 20/2008 of the Democratic Republic of Timor-Leste dated 19 June 2008. The ANPM undertaken its role and functions as Regulatory Authority on behalf of the Ministry Responsible for Petroleum and Mineral Sectors to administer and regulate the upstream to downstream petroleum sectors and all the Mineral sectors within Timor-Leste Onshore and Offshore territory. In exercising its power and function, the ANPM shall act in accordance with Maritime Boundary Treaty (Treaty) between the Republic Democratic of Timor-Leste and Australia, including Special Regime for Greater Sunrise provided in Annex B of the Treaty, Decree Laws for implementation of the Annex D of the Treaty and other existing legislations and regulations applicable in the Territory of Timor-Leste.

In 2019, with the ratification of the Treaty on 30th August 2019, the management of the Former Joint Petroleum Development Area (JPDA) have been changed from the Designated Authority (DA) to Timor-Leste Authority for petroleum sector.

Under Article 9.1(a) of the Treaty, upon entry into force of the Treaty, the Timor Sea Treaty shall cease to be in force. Subsequently, in Article 1.3 for the Annex D of the Treaty, from the ratification of the Treaty, the parties (Timor-Leste and Australia) agree that Timor-Leste shall receive all future upstream revenue derived from Petroleum Activities from Bayu-Undan Gas Field and Kitan Oil Field.

Pursuant to those provisions in the Treaty, the State entitlement of upstream petroleum revenues from production sharing contracts (PSCs) of both fields is 100% paid to Timor-Leste.

The financial statements were authorized for issuing in accordance with a resolution of the directors on 30 May 2022.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

2. SIGNIFICANT ACCOUNTING POLICIES

a. Basis of preparation

The financial statements for ANPM are general purpose financial statements prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). For the purposes of preparing the financial statements, ANPM is a not-for-profit entity.

The financial statements have been prepared on a historical cost basis, and amounts are presented in United States Dollars (which is also the ANPM's functional currency) except when otherwise indicated. The financial statements provide comparative information in respect of the previous period.

New Accounting Standards and Interpretations adopted by ANPM

ANPM has applied all new and amended Accounting Standards and Interpretations that were effective as at 1 January 2021. The adoption of these new and amended standards and interpretations did not have any effect on the financial position or performance of the ANPM.

b. Current versus non-current classification

The ANPM presents assets and liabilities in the statement of financial position based on current/noncurrent classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled within the normal operating cycle
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The ANPM classifies all other liabilities as non-current.

c. Government Grant

Subsidy from Timor-Leste Government

Subsidy from the Timor-Leste Ministry of Petroleum and Mineral Resources are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

d. Presentation Currency

The financial statements are presented in US dollars, which is also the ANPM's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by ANPM at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognized in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

e. Property, plant and equipment

The initial cost of a property, plant, equipment comprises its purchase price or construction cost, any cost directly attributable to bringing the asset to working condition for its intended use.

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property, plant and equipment. When significant parts of property, plant and equipment are required to be replaced at intervals, the ANPM recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Computer equipment	3 – 5 years
Vehicles	4 – 6 years
Leasehold improvements	5 – 20 years
Office Equipment	3 – 5 years
Office Furniture	4 – 5 years
Other Assets	3 – 6 years

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss when the asset is derecognized.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that carrying value may not be recoverable.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

f. Intangible assets

Acquired intangible assets

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and install the specific software.

Subsequent measurement

All intangible assets are accounted for using the cost model whereby capitalized costs are amortized on a straight-line basis over their estimated useful lives, as these assets are considered finite. Residual values and useful lives are reviewed at each reporting date. In addition, they are subject to impairment testing. The useful lives of the intangible assets range from 2 to 4 years. Amortization has been included within depreciation and amortization.

Subsequent minor expenditures on the maintenance of computer software and brand names are expensed as incurred whilst major costs to improve the intangible assets are capitalized.

When an intangible asset is disposed of, the gain or loss on disposal is determined as the difference between the proceeds and the carrying amount of the asset and is recognized in profit or loss within other income or other expenses.

g. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and ANPM's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which ANPM has applied the practical expedient, ANPM initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which ANPM has applied the practical expedient are measured at the transaction price determined under IFRS 15.

ANPM's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortized cost (debt instruments)

This is the only category of financial asset that ANPM has which includes cash and cash equivalents (including balances for Joint Petroleum Development Area and TL Cement Escrow Account) and other debtors.

ANPM measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- ANPM has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the ANPM has transferred substantially all the risks and rewards of the asset, or (b) the ANPM has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When ANPM has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, ANPM continues to recognize the transferred asset to the extent of its continuing involvement. In that case, ANPM also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that ANPM has retained.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

Impairment of financial assets

ANPM recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that ANPM expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, ANPM applies a simplified approach in calculating ECLs. Therefore, ANPM does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. ANPM has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

ANPM considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, ANPM may also consider a financial asset to be in default when internal or external information indicates that ANPM is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the ANPM. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities comprise of only trade and other payables (including balances related to Joint Petroleum Development Area Funds and TL Cement Escrow Account).

Subsequent measurement

All financial liabilities are subsequently measured at amortized cost using the EIR method, unless they meet certain criteria to be classified at fair value through profit or loss in accordance with IFRS 9.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss.

ANPM has not designated any financial liabilities as at fair value through profit or loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

ANPM considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, ANPM may also consider a financial asset to be in default when internal or external information indicates that the ANPM is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the ANPM. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

h. Impairment of non-financial assets

The ANPM assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the ANPM estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

i. Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at banks and cash on hand. For the purpose of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

Joint Petroleum Development Area or Bayu-Undan Petroleum receipts and payments

The Timor Sea Treaty formed the Joint Petroleum Development Area (JPDA) within the Timor Sea, which is jointly controlled and managed for the benefit of the peoples of Timor-Leste and Australia.

In 2019, with the ratification of the Treaty on 30th August 2019, the management of the Former Joint Petroleum Development Area (JPDA) have been changed from the Designated Authority (DA) to Timor-Leste Authority for petroleum sector.

Under Article 9.1(a) of the Treaty, upon entry into force of the Treaty, the Timor Sea Treaty shall cease to be in force. Subsequently, in Article 1.3 for the Annex D of the Treaty, from the ratification of the Treaty, the parties (Timor-Leste and Australia) agree that Timor-Leste shall receive all future upstream revenue derived from Petroleum Activities from Bayu-Undan Gas Field .

Pursuant to those provisions in the Treaty, the State entitlement of upstream petroleum revenues from production sharing contracts (PSCs) of both fields is 100% paid to Timor-Leste.

Petroleum monies received and paid are held in a separate bank account for this purpose in the name of the ANPM. These monies together with any interest received and net of any bank charges incurred is distributed to the respective governments.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

j. Employee benefits

Provision is made for certain employee benefits accumulated as a result of employees rendering services up to the reporting date. These benefits include wages. The liabilities are measured at their nominal amount and are expected to be settled within twelve months.

The employee contributes 4% out of their gross salary to be withheld by the ANPM. In addition, the ANPM contributes a further 6% of their gross salary to Social Security. On the 20th of the following month, the ANPM will transfer its social security contributions withheld to a designated bank account under the signature holder of the Social Security office. In addition to the SS Law obligations, the ANPM is also required to provide employee reimbursements for medical assistance from pre-approved healthcare providers of up to \$50 per employee.

The Timor-Leste Labor Law also states that all employees are entitled to one month of salary for every five years of service to their employer upon termination of their contract, regardless of the reason for termination. The ANPM provides for these entitlements, with the current portion (payable in less than 12 months) representing all the employees who have already reached five or ten years of service with the ANPM.

k. Provisions, contingent liabilities and contingent assets

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Provisions are discounted to their present values, where the time value of money is material.

Any reimbursement that the ANPM can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset. However, this asset may not exceed the amount of the related provision.

No liability is recognized if an outflow of economic resources as a result of present obligation is not probable. Such situations are disclosed as contingent liabilities, unless the outflow of resources is remote in which case no liability is recognized.

l. Economic dependence

The ANPM is dependent upon the ongoing receipt of Timor-Leste Government support and contract service fee and development fees from contract operations to ensure the ongoing continuance of its operations.

At the date of this report, the Directors have no reason to believe that this financial support will not continue.

m. Significant accounting judgements and estimates

The preparation of the ANPM's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

No accounting judgements or estimates have been identified that have significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next accounting period.

n. Allocation of costs

The ANPM carries out functions on behalf of the Joint Petroleum Development Area (JPDA) under the Timor Sea Treaty as the Designated Authority, and also carries out functions in the Timor-Leste Exclusive Area (TLEA). Article 6 (b) (vi) of the Timor Sea Treaty states that the Designated Authority of the JPDA, being the ANPM, shall be financed from fees collected under the Petroleum Mining Code.

Each year the Joint Commission of the JPDA authorizes a budget of the ANPM based on their work plan for the year. The budget includes the percentages expenditure should be split between the JPDA and TLEA for each internal directorate.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2020

o. Revenue

Contract services fees

This fee is payable as soon as a PSC governed by the JPDA legislation is awarded to the operator, regardless of any exploration or development that has been carried out by the operator. Contract service fees (CSF) are recognized when the right to receive the contract service fee has been established and can be measured reliably.

On 30 August 2019, the Timor Sea Treaty has been replaced by a Treaty Establishing Maritime Borders in the Timor Sea which makes Timor-Leste as the designated authority on the JDPA (see note 1 for further details). This also resulted in CSF received from Bayu-Undan Gas Field and Kitan Oil fields being paid to the Government of Timor-Leste instead of the ANPM except CSF from the Greater Sunrise Special Regime.

Development fees

This fee is payable by operators of offshore oil and gas fields that have entered the commercial development phase and applies for every subsequent calendar year. The regulatory services undertaken by the ANPM for the JPDA are funded by way of these development fees paid by operators for the Production Sharing Contracts (PSC). Development fees are recognized when the right to receive the development fee has been established and can be measured reliably. To the extent that there is a related condition attached, that would give rise to a liability to repay the amount, deferred income is recognized instead of revenue.

On 30 August 2019, the Timor Sea Treaty has been replaced by a Treaty Establishing Maritime Borders in the Timor Sea which makes Timor-Leste as the designated authority on the JDPA (see note 1 for further details). This also resulted in development fees received from Bayu-Undan Gas Field being paid to the Government of Timor-Leste instead of ANPM.

Downstream fees

The fees consist of licensing fees payable to the ANPM for any entity which is conducting downstream activity in Timor-Leste during the financial period. Downstream activity includes the installation and operation of fuel stations, the installation and operation of storage facilities and the importing/exporting of oil and gas. Downstream fees are recognized when the right to receive the downstream fee has been established. To the extent that there is a related condition attached that would give rise to a liability to repay the amount, deferred income is recognized instead of revenue.

p. Leases

ANPM assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

As a Lessee

ANPM applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. ANPM recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right of use assets

ANPM recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the asset.

Lease liabilities

At the commencement date of the lease, ANPM recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by ANPM and payments of penalties for terminating the lease, if the lease term reflects ANPM exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, ANPM uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

ANPM applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value (i.e. below \$5,000). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

3. ACCOUNTING STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

International Financial Reporting Standards and Interpretations that have recently been issued or amended but are not yet effective and have not been adopted by the ANPM for the financial reporting period ended 31 December 2021. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective. The adoption of these new and amended standards and interpretations is not expected to have a material impact on the financial position or performance of the ANPM.

4 CASH AND CASH EQUIVALENTS	2021	2020
	\$	\$
Cash at bank (ANZ Dili)	17,092,464	13,404,092
 Cash and cash equivalents held for the operations of the ANPM	17,092,464	13,404,092
<i>Other cash and cash equivalents under the administration of ANPM - see note below</i>		
Timor-Leste National Library Project*	1,536,202	1,536,202
Oilex Settlement Proceeds (<i>refer to Note 19</i>)	5,900,000	5,650,000
ANZ Singapore JPDA funds**	13,761,726	5,085,925
Total	38,290,392	25,676,219

* In 2017 and 2019 the Government of Timor-Leste transferred \$1,500,000 and \$825,000 respectively to ANPM to fund the Timor-Leste National Library project. As the funds can only be used for the Timor-Leste National Library project, the amount is restricted from being used for any other purpose.

** The ANZ Singapore Joint Petroleum Development Area ('JPDA') funds are held in name of the ANPM as the Designated Authority of the Joint Petroleum Development Area in terms of article 6 (b) (iv) of the Timor Sea Treaty. This treaty was in place until 29 August 2019. On 30 August 2019, the Timor Sea Treaty has been replaced by a Treaty Establishing Maritime Borders in the Timor Sea which makes Timor-Leste as the designated authority on the JDPA. Refer to Note 1 for further details regarding the arrangements in place during the transition from the Timor Sea Treaty to Treaty Establishing Maritime Borders.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

5 TL CEMENT ESCROW ACCOUNT	2021	2021
	\$	\$
TL Cement Escrow Account	50,280,428	50,280,428
	50,280,428	50,280,428

The TL Cement Escrow Account represents the TL Government Fund, a special fund allocated to the TL Cement Project by The Government of Timor-Leste. The Councils of Minister resolved to transfer the funds the Government of Timor-Leste was required to contribute to the TL Cement Project to the ANPM whilst the Government of Timor-Leste promotes the preparation and completion of the investment of such amount by the State in the Project. The funds will be transferred to the TL Cement Project upon instruction from the Government of Timor-Leste however, the funds held in the escrow account may not exceed two calendar years after which the amount deposited in the TL Cement Escrow Account shall automatically revert to The Consolidated Fund for East Timor (CFET) Account, unless otherwise directed by the Council of Ministers. The account was initially agreed to be held for 2 years up to December 2020, however, the government through Council of Minister has agreed to extend the holding of the fund by the ANPM until 31 December 2022.

The funds received by ANPM are held with a bank account held with the Central Bank of Timor-Leste with joint signatories from both the ANPM and the Ministry of Finance required to authorize any transactions to occur.

In accordance with Certificate for the Minutes of Council of Ministers, interest earned on the fund held for the TL Cement Project will be used for development of the Project and/or to the exploitation of mineral resources. Central Bank of Timor-Leste suspended the application of interest to all government deposit account from April 2020 (which has been effective till the date of this report) due to the COVID-19 Pandemic.

11 LEASES

In 2019, ANPM entered into a lease contract for Suai office for use in its operations. Leases of office space is generally having lease term of one year and renewable for another one year.

Set out below are the carrying amounts of right-of-use asset recognised and the movements during the period:

	2021	2020
	\$	\$
Beginning balance – 1 January	30,948	39,881
Additions	28,957	12,580
Depreciation expense	(19,094)	(21,513)
Ending balance – 31 December	40,811	30,948

Set out below are the carrying amounts of lease liability recognised and the movements during the period:

	2021	2020
	\$	\$
Beginning balance – 1 January	31,454	40,128
Additions	28,957	12,580
Accretion of interest	273	1,246
Payments	(19,499)	(22,500)
Ending balance – 31 December	41,185	31,454

	2021	2020
	\$	\$
Lease liability – current	23,344	17,963
Lease liability – noncurrent	17,841	13,491
	41,185	31,454

Payments of \$53,831 for leases with low value and lease term of 12 months or less were expensed in the statement of Profit or Loss and Other Comprehensive Income for the year ended 31 December 2021 (2020: \$42,238).

12 PROVISIONS	2021	2020
	\$	\$
Employee length of service compensation – current	228,643	187,340
Employee length of service compensation – non-current	109,825	90,092
	338,469	277,432

According to the Timor-Leste Labour Law, Article 56, all employees are entitled to one month of salary for every five years of service to their employer upon termination of their contract. This entitlement is payable by the ANPM regardless of the reason for termination of the employee's contract. The current portion of this provision represents the total entitlement due to employees who have reached five or ten years of service. The noncurrent portion of this provision relates to conditional entitlement of employee's length of service compensation and based on probability of reaching the employee's service to five years or ten years of service.

18 **FINANCIAL INSTRUMENTS**

a) Financial risk management objectives and policies

The ANPM's principal financial instruments comprise receivables, payables, cash and Corporate Credit Card Security placement (including the JPDA fund and TL Cement Escrow Account related balances).

The ANPM manages its exposure to financial risks, in accordance with its policies. The objectives of the policies are to maximize the income to the ANPM whilst minimizing the downside risk.

One of the requirements under Production Sharing Contracts ('PSC') entered into between the ANPM and exploration companies is that the company must provide adequate security by way of a bank issued Letter of Credit, or equivalent security. The security document provides additional certainty that the exploration companies will meet their minimum expenditure requirements under the PSC.

The Authority's activities expose it to normal commercial financial risk. The main risks arising from the ANPM's financial instruments are foreign exchange risk, interest rate risk, credit risk and liquidity risk. Risks are considered to be low.

Primary responsibility for the identification and control of financial risk rests with Management under the authority of the ANPM Board of Directors.

b) Net fair value of financial assets and liabilities

Cash and cash equivalents: The carrying amount approximates fair value because of their short-term maturity.

Trade and other receivables and trade and other payables: Their carrying amounts approximates fair value due to their short-term nature.

c) Foreign Exchange Risk

The ANPM generally operates using United States denominated currency held in US dollar bank accounts. The ANPM is exposed to foreign exchange risk arising primarily from amounts owing to suppliers denominated in foreign currencies.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

d) Interest Rate Risk

Interest rate risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The ANPM is exposed to interest rate risk primarily from its cash surpluses invested in short-term interest-bearing deposits. The deposits are only made with reputable financial institutions with maturity dates generally being no more than 30 days.

Monies held on behalf of the Timor-Leste governments may be placed in short-term term deposits of generally less than one month. Any interest accruing is paid to the governments and does not form part of the ANPM's income.

e) Credit Risk

Credit risk arises from the financial assets of the entity, which comprise cash and cash equivalents and trade and other receivables. The company's exposure to credit risk arises from potential default of the counter party, with a maximum exposure equal to the carrying amount of these instruments. Exposure as at balance sheet date is addressed in each applicable note.

The ANPM has a significant concentration to credit risk through its cash and deposits with banks. The main concentration is with one international bank with a credit rating (based on Standard & Poor's) of AA- and the Central Bank of Timor-Leste in relation to the TL Cement Project Escrow Account.

f) Liquidity Risk

Liquidity risk arises from the financial liabilities of the entity and ANPM's subsequent ability to meet its obligations to repay its financial liabilities as and when they fall due.

The ANPM has a system of reducing its exposure to liquidity risk by monitoring its cash flows closely through rolling future cash flows and monitoring the ageing of receivables and payables. The payables reflected on the statement of financial position are all due within 12 months from balance date. ANPM has no non-current liabilities. Refer to note 5 and note 15 for the nature of the TL Cement Escrow account related assets and liabilities.

19 Oilex Settlement Proceeds

During previous financial year, the ANPM (as first party) and Oilex (JPDA 06-103) Ltd ("Oilex") and its Joint Ventures (second party) have reached an agreement to amicably resolve the ongoing arbitration proceedings arising from the termination of the Production Sharing Contract (PSC) of 2015. The Operator and its joint ventures agreed to execute the Deed of Settlement and Release (Deed) which was agreed by both parties and signed in July 2020. The Deed factored the compensation to the Government of Timor-Leste and Government of Australia of US\$ 8,000,000 which will be allocated to the operator and its joint venture based on their participation interest. As at 31 December 2021, \$5,900,000 (2020: \$5,650,000) of the agreed settlement amount has been received . The settlements proceeds received and the related interest income earned, if any will be transferred to the Government of Timor-Leste and Government of Australia once the full amount will be collected. As at 31 December 2021 and 2020, the ANPM has recognised the amount of settlement received as restricted cash with a corresponding liability to the Government of Timor-Leste and Australia.

20 EVENTS AFTER THE REPORTING DATE

There are no events post the balance date that would have material impact on the ANPM's future operations or financial position.

21 EQUITY	2021	2020
	\$	\$
Opening initial contribution	2,153,168	2,153,168
Closing initial contribution	2,153,168	2,153,168

22 COMMITMENTS AND CONTINGENCIES

At 31 December 2021, ANPM has commitments of \$425,000 (2020: \$250,000) relating to the purchase of new vehicles. There are no contingent liabilities or contingent assets as at 31 December 2021 and 2020.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

23 KEY MANAGEMENT PERSONNEL

Key management personnel are those having authority and responsibility for planning, directing and contracting activities of the entity of the entity including whether executive or non-executive. Key management consist of several directorates such as Board of Director, President, Mineral, Vice President, Single Auditor, JPDA, Commercial, Development & Production, Exploration & Acreage Release, Corporate Service, PSC & Legal and Downstream Directorates. Upon the Maritime Boundary ratification, the JPDA Directorate becomes redundant. Disclosures regarding remuneration of key management personal are provided in the remuneration as following:

	2021	2020
	\$	\$
Short term employee benefit	590,894	566,456
<u>Long-term employee benefit</u>	<u>65,785</u>	<u>25,518</u>
Total compensation paid to key management personnel	656,679	591,974

24 TAXES

Income and deferred tax

ANPM is being a government entity, is not subject to income tax as confirmed by the Ministry of Finance on 23 February 2015.

On 27 February 2015, the ANPM obtained legal advice from DLA Piper stating that the Authority is exempt from Australian income tax under the International Organisations (Privileges and Immunities) Act 1963 and the Timor Sea Treaty Designated Authority (Privileges and Immunities) Regulations 2003.

Withholding tax

Depending on the contractual arrangement, withholding taxes are either withheld against suppliers in specified industries or grossed up at the applicable rates and the monies paid over to the government of Timor-Leste.

26 RESERVES

Capital Reserve

The capital asset reserve is used to classify equity (accumulated funds) during the financial period that represents cash used to purchase assets outside of the ANPM's planned budget for the year. At the end of the 2021 and 2020 financial period, \$Nil remained in the capital asset reserve.

Expenditure Reserve

The expenditure reserve is used to classify equity (accumulated funds) during the financial period that is expected to be used to fund part of the ANPM's expenditure deficit. It has to be agreed and approved at the ANPM budget approval. As at 31 December 2021, the expenditure reserve amounted to nil (2020: Nil).

27 CAPITAL RISK MANAGEMENT

The ANPM's capital comprises initial capital contributions, accumulated funds, capital asset reserve and expenditure reserves amounting to \$16,312,020 as at 31 December 2021 (2020: \$13,332,419). The ANPM manages its capital to ensure its ability to continue as a going concern and carry out its responsibilities as the Designated Authority. Refer to Note 18 for further information on the ANPM's financial risk management policies.

Independent auditor's report to the Directors of Autoridade Nacional do Petróleo e Minerais

Opinion

We have audited the Statement of Petroleum Revenue Receipts and Payments ("the Statement") of Autoridade Nacional do Petróleo e Minerais ("the Authority"), which comprises the statement of petroleum revenue receipts and payments for the year ended 31 December 2021, notes to the statement of petroleum revenue receipts and payments, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the Statement of Petroleum Revenue Receipts and Payments is prepared, in all material respects, in accordance with the accounting policies disclosed in Note 2 of the Statement.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Statement* section of our report. We are independent of the Authority in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the Statement in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter - Basis of accounting

We draw attention to Note 2 to the Statements which describes the basis of accounting. The Statement is prepared to assist the Authority to meet the requirements of Decree Law on the establishment of the Authority, the Timor-Leste Petroleum Activities Law, and the Maritime Boundary Treaty ('Treaty') between the Governments of Australia and the Democratic Republic of Timor-Leste. As a result, the Statement may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Responsibilities of the Directors for the statement

The Authority's Directors are responsible for the preparation of the Statement in accordance with the significant accounting policies disclosed in Note 2 of the Statement and for such internal control as the Directors determine is necessary to enable the preparation of the Statement that is free from material misstatement, whether due to fraud or error.

**Building a better
working world**

Page 2

Auditor's responsibilities for the audit of the statement

Our objectives are to obtain reasonable assurance about whether the Statement is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Statement.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, and related disclosures made by the directors.
- ▶ Evaluate the overall presentation, structure and content of the Statement, including the disclosures, and whether the Statement represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE STATEMENT OF PETROLEUM REVENUE RECEIPTS AND PAYMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

1. Nature of Operations

Autoridade Nacional do Petróleo e Minerais (ANPM) is a public institution created pursuant to the Decree Law No.27/2019 dated 27th August 2019 as the 2nd amendment to the Decree Law no. 20/2008 of the Democratic Republic of Timor-Leste dated 19 June 2008. The ANPM undertaken its role and functions as Regulatory Authority on behalf of the Ministry Responsible for Petroleum and Mineral Sectors to administer and regulate the upstream to downstream petroleum sectors and all the Mineral sectors within Timor-Leste Onshore and Offshore territory. In exercising its power and function, the ANPM shall act in accordance with Maritime Boundary Treaty (Treaty) between the Republic Democratic of Timor-Leste and Australia, including Special Regime for Greater Sunrise provided in Annex B of the Treaty, Decree Laws for implementation of the Annex D of the Treaty and other existing legislations and regulations applicable in the Territory of Timor-Leste.

In 2019, with the ratification of the Treaty on 30th August 2019, the management of the Former Joint Petroleum Development Area (JPDA) have been changed from the Designated Authority (DA) to Timor-Leste Authority for petroleum sector.

Under Article 9.1(a) of the Treaty, upon entry into force of the Treaty, the Timor Sea Treaty shall cease to be in force. Subsequently, in Article 1.3 for the Annex D of the Treaty, from the ratification of the Treaty, the parties (Timor-Leste and Australia) agree that Timor-Leste shall receive all future upstream revenue derived from Petroleum Activities from Bayu Undan Gas Field.

Pursuant to those provisions in the Treaty, the State entitlement of upstream petroleum revenues from production sharing contracts (PSC) of Bayu Undan field is 100% paid to Timor-Leste.

The Contracting company operate in the Bayu-Undan Gas Field.

The Bayu-Undan field lies in the PSC TL-SO-T 19-12 (former PSC JPDA 03-12) and PSC TL-SO-T 19-13 (former PSC JPDA 03-13) contract areas. Discovered in 1995, with first production being in 2004, the Bayu Undan field is approximately 250 kilometres from Timor-Leste and 500 kilometres from the Australian coast. Bayu-Undan upstream produces condensate, liquefied petroleum gas, while liquefied natural gas is produced at the Darwin liquefaction plant under the downstream facilities. At the end of year 2020, Santos Limited (“Santos”) is the main operator with a 68.4% interest entitlement after completing the acquisition of ConocoPhillips Corporation’s (“ConocoPhillips”) northern Australia and Timor-Leste assets, while its joint venture partners hold the following interest: Inpex Corporation (11.38%); Eni Australia (10.99%); and Tokyo Timor Sea Resources (aggregate 9.2%).

In May 2021, Santos Limited (“Santos”) who holds of 68.4% participation interest has sold its 25% interest in Bayu-Undan to BU12 Australia PTY LTD (“BU12”) & BU13 Australia PTY LTD (BU13).

2. Significant accounting policies

a. Basis of preparation

The Statement of Petroleum Revenue Receipts and Payments is prepared on a cash basis. The Statement of Petroleum Revenue Receipts and Payments is prepared for monies received by the ANPM as a Designated Authority under the petroleum and mineral authority under Timor-Leste Law. These petroleum proceeds are held on behalf of the Timor-Leste Governments in a ANZ bank account in the name of the ANPM and are distributed to the government on a regular basis, interest earned, and net of bank charges incurred. The accounting policies have been applied consistently throughout the period.

b. Petroleum revenue receipts

Petroleum revenue receipts are recognised on receipt in the Statement of Petroleum Revenue Receipts and Payments. Petroleum receipts comprise of First Tranche Petroleum (FTP) and Profits Oil and Gas as defined in the PSC.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS
NOTES TO THE STATEMENT OF PETROLEUM REVENUE RECEIPTS AND PAYMENTS
FOR THE YEAR ENDED 31 DECEMBER 2021

c. Payments

Payments are the distributions to the Timor-Leste government in terms of the Treaty and the Decree Law No.27/2019 dated 27 August 2019 as the 2nd amendment to the Decree Law 20/2008. After the ratification of Timor-Leste and Australian Maritime Boundary on the 30th of August 2019, Australian entitlement of 10% of the JPDA Revenue (Bayu Undan) does no longer apply. Distributions to the Ministry of Finance of Timor-Leste are recognised on a cash payment basis in the Statement of Petroleum Revenue Receipts and Payments.

d. Presentation currency

The Statement of Petroleum Revenue Receipts and Payments is presented in United States Dollars.

e. Cash and Cash Equivalents

Cash and cash equivalents include amounts held in current and short-term deposits at ANZ bank. Amounts held represent petroleum proceeds (FTP/Royalty and profit oil & gas) received, with interest and bank charges.

These monies together with any interest received and bank charges incurred is distributed to the Petroleum Fund account of the Central Bank of Timor-Leste. Distributions are made on a monthly basis for FTP and profit oil and gas generated from Bayu-Undan is distributed within the month on the following day the fund deposited by contracting companies in ANPM ANZ account.

f. Interest

Interest earned is made up mainly from fund held during the month from ANZ bank in any given month prior to the funds being distributed to the Ministry of Finance of Timor-Leste in the following month.

Profit oil interest is received as compensation to the delay of profit oil payment on ANPM's share of profit oil.

Independent auditor's report to the Directors of the Autoridade Nacional do Petróleo e Minerais

Opinion

We have audited the Statement of Mineral Revenue Receipts and Payments ("the Statement") of Autoridade Nacional do Petróleo e Minerais ("the Authority"), which comprises the statement of mineral revenue receipts and payments for the year ended 31 December 2021, notes to the statement of mineral revenue receipts and payments, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the Statement of Mineral Revenue Receipts and Payments is prepared, in all material respects, in accordance with the accounting policies disclosed in Note 2 of the Statement.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Statement* section of our report. We are independent of the Authority in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the Statement in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter - Basis of accounting

We draw attention to Note 2 to the Statements which describes the basis of accounting. The Statement is prepared to assist the Authority to meet the requirements of Decree Law on the establishment of the Authority and the Ministerial Diploma. As a result, the Statement may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Responsibilities of the Directors for the statement

The Authority's Directors are responsible for the preparation of the Statement in accordance with the significant accounting policies disclosed in Note 2 of the Statement and for such internal control as the Directors determine is necessary to enable the preparation of the Statement that is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the audit of the statement

Our objectives are to obtain reasonable assurance about whether the Statement is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Statement.

**Building a better
working world**

Page 2

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, and related disclosures made by the directors.
- ▶ Evaluate the overall presentation, structure and content of the Statement, including the disclosures, and whether the Statement represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS OF TIMOR-LESTE

NOTES TO THE STATEMENT OF MINERAL REVENUE RECEIPTS AND PAYMENTS

FOR THE YEAR ENDED 31 DECEMBER 2021

1. Nature of Operations

Autoridade Nacional do Petróleo e Minerais (ANPM) is a public institution created pursuant to the Decree Law No. 27/2019 of 27th August 2019 as the 2nd Amendment to the Decree Law no. 20/2008 of the Democratic Republic of Timor-Leste. The ANPM undertaken its role and functions as Regulatory Authority on behalf of the Ministry Responsible for Petroleum and Mineral Sectors to administer and regulate the upstream to downstream petroleum sectors and all the Mineral sectors within Timor-Leste Onshore and Offshore territory. In exercising its power and function, the ANPM shall act as designated authority in accordance with Delimitation of Maritime Boundaries Treaty to regulate Special Regime of Greater Sunrise.

Under Article 28.1(a) of Decree Law No.6/2015, the Ministerial Diploma applies to the exploration and mining of construction materials and regulates the licensing procedure for Mining Activities in the territory of Timor-Leste. Under the Ministerial Diploma, prospecting, exploring and mining activities are to be levied through a licencing and mining fee. Article 8.3 of Diploma, the assessment of these fees is to be managed by the ANPM and paid to a designated bank account nominated by the Ministry of Finance of Timor-Leste.

The Mining Code was approved by Parliament and promulgated by President of the Republica Democrática de Timor-Leste during the year being Law No. 12/2021 of 30 June 2021. Whilst the Law was to enter into force by 30 December 2021 (being within 180 days after its Publication date of 30 June 2021), Decree Law on Regulation for Mining code or auxiliary laws and regulation to operationalise the Mining Code are yet to be formalised and accordingly, the new Decree Laws are yet to come into effect

2. Significant accounting policies

a. Basis of preparation

The Statement of Mineral Revenue Receipts and Payments is prepared on a cash basis. The Statement is prepared for monies received by the ANPM as a Regulatory Authority under the Ministerial Diploma. These licencing and mining fee deposits are received by the ANPM on behalf of the Ministry of Finance of Timor-Leste in a BNU Timor bank account and distributed to the main account immediately whenever the operator makes payment, net of bank charges incurred. The accounting policies have been applied consistently throughout the period.

b. Mineral revenue

Mineral revenue is recognised on receipt in the Statement of Mineral Revenue Receipts and Payments. Mineral revenue comprises of Prospecting Fees, Exploration Fees and Mining Fees. These are defined in Article 7 and 8 of the Mineral Ministerial Diploma No. 64/2016. Such fees are to be collected from the holder of mineral rights who undertakes the mining activities. Article 42 defines the revocation of licences, including the suspension and ceasing of mining activities, and the payment of compensation fees.

- License Fees**

Article 7 of the diploma defines License fees levied on different mining activities, except artisanal mining for which no fee is levied. The fee stated under this article is applicable to both new and extended license.

- (a) Artisanal, no fee applied**

- (b) Prospecting, Five hundred US Dollars (USD 500.00);**

- (c) Exploration, One thousand and five hundred US Dollars (USD 1,500.00);**

- (d) Mining.**

- (i) Medium-scale mining, Five hundred US Dollars (USD 500.00);**

- (ii) Large-scale mining, One thousand and five hundred US Dollars (USD 1,500.00)**

- Mining Extraction Fees**

Article 8 defines that mining fees levied on the value of construction materials, process materials and dimension and ornamental stones, and holder of mineral rights who undertakes the mining activities shall pay mining fees in accordance with the mining category and fees.

AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS OF TIMOR-LESTE

NOTES TO THE STATEMENT OF MINERAL REVENUE RECEIPTS AND PAYMENTS

FOR THE YEAR ENDED 31 DECEMBER 2021

2. Significant accounting policies (continued)

- **Compensation Fees**

Article 42.2 defines what constitutes the mining activities without holding valid license; the Regulatory Authority shall undertake the following measures:

(a) Suspend the mining activities and obliges the natural or legal person to pay for construction materials, process materials or dimensions and ornamental stones collected or extracted; and

(b) Close or shut-down the mining activities if natural or legal person does not apply for mining activity license within thirty (30) working days of notification from the Regulatory Authority.

- **Surface Fee**

Surface Fee levied calculated using the area of surface explore multiplied by an agreed rate per hectare in accordance with the exploration agreements between the Republic Democratic of Timor-Leste and respective companies.

- c. **Payments**

Payments are distributions to the Ministry of Finance of Timor-Leste, in accordance with the Ministerial Diploma. The operators make payment to the Mineral Operation Royalty account in BNU owned by Ministry of Finance Timor-Leste and it is transferred immediately to the main account and are net of bank charges. Distributions to the Ministry of Finance of Timor-Leste are recognised on a cash payment basis in the Statement of Mineral Revenue Receipts and Payments.

- d. **Foreign currency**

The Statement of Mineral Revenue Receipts and Payments is presented in United States Dollars.

- e. **Bank Charges**

Bank charges are applied to amounts deposited by the contract operator into the BNU Timor temporary bank account.
